Blaser Software - RDP Sentinel Crack License Key [Mac/Win] (Updated 2022)

Blaser Software - RDP Sentinel Full Crack is a lightweight application designed to protect your computer from logon attacks. The program can block the access to a particular IP address after the specified number of failed attempts, thus acting as a firewall for your PC. Blaser Software - RDP Sentinel can block brute-force logon attacks via your Remote Desktop Server. The tool is suitable for users who have enabled and configured their Remote Desktop Server since it can protect it from unauthorized logon attempts. Blaser Software - RDP Sentinel's function is simple: it acts as a firewall and blocks the IP address after a certain count of failed attempts to logon to your system. The program automatically adds the blocked IP addresses to list in Windows Firewall Advanced Security control panel. In other words, it can create individual entries in the security inbound rules for each restricted address. Blaser Software - RDP Sentinel can notify you when an IP address was blocked due to failed logon attempts via remote desktop to your PC. You need to specify the SMTP server address, in the program's configuration window, set the recipient's email (yourself) and a sender address that you can recognize. Moreover, you can manually enter the number of failed attempts that trigger the action of blocking the access of that particular IP address. The email notifications are not mandatory and you can easily enable and disable them if you should so choose. Blaser Software - RDP Sentinel is a reliable tool for users who have enabled the Remote Desktop Server for their computers. The tool provides protection for your system, by applying a simple algorithm to block IP addresses. Moreover, you can set the number of accepted failed attempts to a low value.
